

Guardian Telecom Inc. Announcement

Guardian Telecom Inc. of Calgary, Alberta, Canada is very pleased to announce that **Carbon Controls Ltd.** has joined the Guardian Channel Partner Program. Effective September 1, 2009, Carbon Controls takes on the role of Manufacturer's Representative for Guardian in Western Canada. In this role Carbon Controls will promote and support the Guardian product and services lines to VARs(Value Added Resellers), System Integrators, Distributors and End-Users.

Carbon Controls Ltd is a Calgary-based, privately owned Sales and Service company providing high-quality Instrumentation, Electrical and Controls products to all sectors of industry. Carbon Controls has a well-developed network and exceptional expertise in Petrochemical/Oil & Gas, Waste-Water Treatment and Pulp & Paper and currently represents industry-leading products including:

- Variable Frequency Drives
- Motors & Motor Control Centres
- Fire Protection Systems
- Gas Detection Systems
- Alarming, Signaling and Safety Devices
- Safety-Critical Control and Turbo Machinery Control Systems
- Flow & Level Measurement

The Guardian Telecom line of rugged Industrial, Hazardous Area & Weather-Proof Telephones, Paging and Alarm Systems is a natural complement to the existing line up of Carbon Controls products and services.

Nick Dabrensky, VP Sales of Guardian Telecom welcomes Carbon Controls to the Channel Partner Program. "Marc Goldade, Kevin Appelhof and Cedric Rosario have established their company as an integral and well-respected Manufacturer's Representative in the Canadian and global market. Their solid customer relationships and product knowledge will enable them to be a key driver and supporter of business for Guardian."

Carbon Controls Ltd. can be reached at:
